Nuovo PIANO DI GOVERNO DEL TERRITORIO

Assetto della città esistente

100

The figure is a map of a study area, likely a coastal or island region, divided into a grid of 26 numbered sampling sites. The sites are arranged in a roughly rectangular pattern, with some sites missing from the top row. A red box highlights site 13, which is located in the second column from the left and the second row from the bottom. The map also features a network of brown lines representing roads or paths connecting the sites. The background is a light purple color, and the grid lines are white.
